ABOUT US

TL9000

HTL Ltd is an Industry acclaimed passive components manufacturer in India, HTL Ltd's fiber and copper cabling solutions for faster & enhanced connectivity experience are the product of choice for leading Indian as well as global telecom hardware manufacturers. Today, our fiber & copper solutions help enterprises to manage their converged networks by providing plenty of bandwidth headroom for future growth.

HTL offers a complete range of fiber cable assemblies which are factory-connectorized to produce unsurpassed connectivity while our copper cable assemblies provide dependable high performance cabling infrastructure that would last long into the future. Similarly, our cabinets portfolio is helping telecom players to reimagine network hardware and cable management systems. Our entire range of products meets and exceeds the performance requirements of Central Office, Outside Plant, FTTH, LAN, security surveillance and data center cabling applications.

All of our products meet IEC, EIA/TIA, TSEC & GR326 Standards. Our products are easy to install, future ready with minimum installation and reduce time spent on sites as well as operating costs. Our products are manufactured with the best in class latest technologies to provide fast deployment, provisioning and long-term reliability thereby enabling us to be the preferred partner to build future ready high bandwidth networks for enterprises of today and tomorrow.

Located in Chennai India, our fully integrated passive components facility for design, engineering & manufacturing of an entire gamut of passive components is certified to ISO & other relevant global standards.

FIBER MANAGEMENT SYSTEMS

FIBER OPTIC PATCH PANEL 1U RACK MOUNT TYPE

HTL provides a variety of fiber optic patch panel/ LIU for fiber management systems (FMS) applications. FMS panels are used to provide cable interconnections between communication facilities integrating fiber splicing, fiber terminations and fiber patching with fiber cable connections together in a single unit. It can also work as a protective device to secure fiber optic connections from physical damages during operations.

PRODUCT FEATURES

- 1U sliding drawer type
- Indoor installation grade
- Powder coated CRCA panel
- Adequate cable storage space
- Front removable adapter plate
- Pre-installed with tube for fan out fibers
- Provided with pigtail for guiding fiber pigtails
- Provided with FRP clamping for rear cable entry
- Provided with ABS splice tray for splice management

FIBER TERMINATIONS

- Fusion splicing
- Direct patching
- Distribution network
- Fiber capacity upto 48F

APPLICATIONS

- Data center
- Central office
- Premise cabling
- FTTH access networks
- Data communication networks

FIBER MANAGEMENT SYSTEMS

FIBER OPTIC PATCH PANEL 6U RACK MOUNT TYPE - 864F

HTL provides a variety of fiber optic patch panel/ LIU for fiber management systems (FMS) applications. FMS panels are used to provide cable interconnections between communication facilities integrating fiber splicing, fiber terminations and fiber patching with fiber cable connections together in a single unit. It can also work as a protective device to secure fiber optic connections from physical damages during operations.

PRODUCT FEATURES

- 6U sliding drawer type
- Indoor installation grade
- Powder coated CRCA panel
- Adequate cable storage space
- Front removable adapter plate
- Pre-installed with tube for fan out fibers
- Provided with pigtail for guiding fiber pigtails
- Provided with FRP clamping for rear cable entry
- Provided with ABS splice tray for splice management

FIBER TERMINATIONS

- Fusion splicing
- Direct patching
- Distribution network
- Fiber capacity upto 864F

APPLICATIONS

- High density fiber systems
- Data communication networks
- Backbone enterprise networks
- Hyperscale & Colocation Data Center
- High integration equipment and devices
- Data center & storage area network (SAN)

FIBER MANAGEMENT SYSTEMS

FIBER PATCHING (ADAPTOR) PANELS

HTL Fiber Patching Panel are high-density termination solutions designed for optimal space efficiency. Pre-equipped with fiber adaptors, this ultra-compact patch panel provides a cost-effective approach to managing fiber optic connections without occupying significant rack space.

PRODUCT FEATURES

- Quick Latching Mechanism
- Mounts to standard EIA 19" rack rails
- Integrated dust protection for fiber ports
- Color-coded adaptors for simple identification
- High-density design for efficient fiber management
- Supports up to 288 fibers (depending on adaptor type)
- Constructed from high-quality cold rolled steel material
- Adaptor Type: SC, LC, ST, FC (Single-mode and Multimode)

APPLICATIONS

- Data Center
- Enterprise Networks
- Storage Area Networks (SAN)

FIBER MANAGEMENT SYSTEMS

OPTICAL DISTRIBUTION FRAME

HTL offers a range of Fiber Distribution Management Systems (FDMS) designed to efficiently manage large volumes of optical fibers from single or multiple cables, ensuring flexibility and reliability across all access network environments, including central offices (exchange end), outdoor closures, and building premises. FDMS provides superior cable management for both low and high fiber count installations.

PRODUCT FEATURES

- Floor Mounted Rack
- Easy drop arrangement
- In accordance with TEC 87010:2007
- Dimensions (HxWxD): 2200mm X 900mm X 300mm
- Designed to handle large volumes of connections efficiently
- Modular application (pure splice, splice patch, breakout applications)
- Line & Row modules at front & back sides for double-sided operation

APPLICATIONS

- FTTx Deployments
- Central Office/Headend
- Hyperscale Data Centers
- Telecommunication Hubs

FIBER ACCESS TERMINATION BOX

WALL MOUNT INDOOR/OUTDOOR FIBER TERMINAL BOX: 6-48F - PLASTIC

HTL Passive Connectivity Solutions wall mount fiber access terminal (FAT) box is designed to provide easy patching, storing fiber terminations for feeder cables, branch cable, direct connection and allocation. This FAT is used for both indoor & outdoor applications. This FAT can also be used to mount passive splitters and install fiber in small and medium size multi dwelling units (MDU's) for FTTx applications.

PRODUCT FEATURES

- IP-65 rated
- Ample storage for slack
- Installation: Indoor/Outdoor wall mount type
- Constructed of high quality PC/ABS material
- Available with unloaded and loaded variants
- Accommodates multimode and single mode fibers
- Accommodates 1:8 SC, 1:16 SC, 1:32 SC/LC PLC splitters
- Accommodates 24 Simplex SC and 24 Duplex LC adapters
- Single door type - can be flipped over for ease of access and maintenance
- Can be preloaded with SC, LC adapters and pre-terminated cable assemblies
- Accommodates all cables below 12mm outdoor/indoor cables and 3mm OD soft cables

APPLICATIONS

- Premise cabling
- FTTH access networks
- Data communication networks

FIBER TERMINATION BOX

WALL MOUNT INDOOR/OUTDOOR FIBER TERMINAL BOX: UPTO 48F - METAL

HTL's Wall Mount Fiber Termination Box, also known as an Optical Distribution Box, is a compact yet highly efficient fiber management solution. Designed for FTTx applications, this small-sized unit ensures flexible and reliable organization of optical fibers from one or multiple cables, along with optical splitter assemblies. It provides a consistent and structured approach to fiber management, delivering exceptional performance in even the most demanding environments.

PRODUCT FEATURES

- IP-55 rated
- Ample storage for slack
- Available with unloaded and loaded variants
- Installation: Indoor/outdoor wall mount type
- Constructed of powder coated CRCA material
- Accommodates multimode and single mode fibers
- Accommodates 1:8 SC, 1:16 SC, 1:32 SC/LC PLC splitters
- Accommodates 24 Simplex SC and 24 Duplex LC adapters
- Single door type - can be flipped over for ease of access and maintenance
- Can be preloaded with SC, LC adapters and pre-terminated cable assemblies
- Accommodates all cables below 12mm outdoor/indoor cables and 3mm OD cables

APPLICATIONS

- Premise cabling

FIBER TERMINATION BOX (FTB)

FIBER WALL TERMINATION BOX HOME ACCESS: UPTO 2F

HTL's House Fiber Termination Box is a compact, wall mountable box designed to terminate up to two fibers at the end-user interface, specifically for fiber-to-the-home (FTTH) and fiber-to-the-desk (FTTD) applications.

PRODUCT FEATURES

- Holds up to maximum two fibers
- Wall mount and surface mount type
- Constructed of high quality ABS material
- Available in loaded and unloaded options
- Dimensions (L x W x H in mm): 90 x 90 x 20
- Compact design, small size for easy installation

APPLICATIONS

- FTTH network
- Local area network (LAN), FTTD

FIBER TERMINATION BOX (FTB)

FIBER WALL TERMINATION BOX HOME ACCESS: UPTO 4F

HTL's Fiber Termination Box is a compact, wall mountable box designed to terminate up to four fibers at the end-user interface, specifically for fiber-to-the-home (FTTH) and fiber-to-the-desk (FTTD) applications.

PRODUCT FEATURES

- Holds up to maximum two fibers
- Wall mount and surface mount type
- Constructed of high quality ABS material
- Available in loaded and unloaded options
- Dimensions (L x W x H in mm): 180 x 120 x 40
- Compact design, small size for easy installation

PLC OPTICAL SPLITTERS

PLC OPTICAL SPLITTER BARE TYPE 1XN & 2XN

HTL Passive Connectivity Solutions provides variety of Fiber Optic PLC (Planar lightwave circuit) Splitters for metropolitan area networks (MAN), local area networks, FTTx and other applications. PLC splitters are mainly used for optical signal coupling and distribution in passive optical network (PON) Systems. PLC has advantages of wavelength insensitivity, uniform splitting, high stability and high density.

PRODUCT FEATURES

- Wide operating wavelength from 1260-1650nm
- Compact design, small size for easy installation
- Good uniformity and low polarization dependent loss (PDL)

APPLICATIONS

- FTTx networks
- GPON and 10G-PON networks
- Point to multipoint (P2MP) networks

PLC OPTICAL SPLITTERS

PLC OPTICAL SPLITTER ABS BOX TYPE 1XN & 2XN

HTL Passive Connectivity Solutions provides variety of Fiber Optic PLC (Planar lightwave circuit) Splitters for metropolitan area networks (MAN), local area networks, FTTx and other applications. PLC splitters are mainly used for optical signal coupling and distribution in passive optical network (PON) Systems. PLC has advantages of wavelength insensitivity, uniform splitting, high stability and high density.

PRODUCT FEATURES

- ABS box splitter
- Wide operating wavelength from 1260-1650nm
- Compact design, small size for easy installation
- Good uniformity and low polarization dependent loss (PDL)
- ABS box splitters are suitable with indoor and outdoor wall mount box

APPLICATIONS

- Central office
- FTTx networks
- GPON and 10G-PON networks
- Point to multipoint (P2MP) networks

PLC OPTICAL SPLITTERS

PLC OPTICAL SPLITTER LGX CASSETTE TYPE 1XN & 2XN

HTL Passive Connectivity Solutions provides variety of fiber optic PLC (Planar lightwave circuit) splitters for metropolitan area networks (MAN), local area networks, FTTx and other applications. PLC splitters are mainly used for optical signal coupling and distribution in passive optical network (PON) systems. PLC has advantages of wavelength insensitivity, uniform splitting, high stability and high density.

PRODUCT FEATURES

- LGX cassette box splitter
- Wide operating wavelength from 1260-1650nm
- Compact design, small size for easy installation
- Good uniformity and low polarization dependent loss (PDL)
- LGX cassette splitter are suitable with indoor and outdoor wall mount box

APPLICATIONS

- Central office
- FTTx networks
- GPON and 10G-PON networks
- Point to multipoint (P2MP) networks

PLC OPTICAL SPLITTERS

PLC OPTICAL SPLITTER RACK MOUNT TYPE 1XN & 2XN

HTL Passive Connectivity Solutions provides variety of fiber optic PLC (Planar lightwave circuit) splitters for metropolitan area networks (MAN), local area networks, FTTx and other applications. PLC splitters are mainly used for optical signal coupling and distribution in passive optical network (PON) systems. PLC has advantages of wavelength insensitivity, uniform splitting, high stability and high density.

PRODUCT FEATURES

- 19" rack mount type fixed splitter
- Wide operating wavelength from 1260-1650nm
- Compact design, small size for easy installation
- Good uniformity and low polarization dependent loss (PDL)
- Rack mount splitters are suitable with indoor and outdoor racks or enclosures

APPLICATIONS

- Central office
- FTTx networks
- GPON and 10G-PON networks
- Point to multipoint (P2MP) networks

JOINT SPLICE CLOSURES

JOINT CLOSURE OUTDOOR HEAT SHRINK DOME TYPE

HTL's Fiber Splice Joint Closure is compact, lightweight, and user-friendly. These enclosures are recommended for aerial, buried, and outdoor applications and are compliant with IP68 rating. They are designed for use with any cable construction (loose buffer tube, central core tube, loose fiber, ribbon) in various environments (aerial, pedestal, buried, hand-hole, manhole) and for multiple splice applications (expressed, tap-off, branch, and repair). These closures are used in outside plant networks and securely houses spliced armored optical fiber cables and fibers.

PRODUCT FEATURES

- Heat shrink seal type
- UV resistant outer dome
- All entry ports are sealed ports
- IP68 rated – water proof grade
- 5 ports with four round ports and one oval port
- Constructed of high quality Polypropylene (PP) material

APPLICATIONS

- CATV application
- FTTH access network
- Data communication network
- Outside plant (OSP) distribution network

ORDERING DETAILS

SL. NO.	Part code	Product Description
1	JCHSTT1IT1SHVSTD024F	Fiber Joint Closure Heat Shrink Dome Type – 24F
2	JCHSTT1IT2SHVSTD048F	Fiber Joint Closure Heat Shrink Dome Type – 48F
3	JCHSTT1IT4SHVSTD096F	Fiber Joint Closure Heat Shrink Dome Type – 96F
4	JCHSTT1IT6SHVSTD144F	Fiber Joint Closure Heat Shrink Dome Type – 144F

JOINT SPLICE CLOSURES

JOINT CLOSURE OUTDOOR MECHANICAL DOME TYPE

HTL's Fiber Splice Joint Closure is compact, lightweight, and user-friendly. These enclosures are recommended for aerial, buried, and outdoor applications and are compliant with IP68 rating. They are designed for use with any cable construction (loose buffer tube, central core tube, loose fiber, ribbon) in various environments (aerial, pedestal, buried, hand-hole, manhole) and for multiple splice applications (expressed, tap-off, branch, and repair). These closures are used in outside plant networks and securely houses spliced armored optical fiber cables and fibers.

PRODUCT FEATURES

- UV resistant outer dome
- IP68 rated – water proof grade
- Mechanical seal type – reusable
- 5 ports with four round ports and one oval port
- Constructed of high quality Polypropylene (PP) material

APPLICATIONS

- CATV application
- FTTH access network
- Data communication network
- Outside plant (OSP) distribution network

ORDERING DETAILS

SL. NO.	Part code	Product Description
1	JCMECT1IT1SHVSTD024F	Fiber Joint Closure Mechanical Dome Type – 24F

JOINT SPLICE CLOSURES

JOINT CLOSURE OUTDOOR INLINE/STRAIGHT TYPE

HTL's Fiber Splice Joint Closure is compact, lightweight, and user-friendly. These enclosures are recommended for aerial, buried, and outdoor applications and are compliant with IP68 rating. They are designed for use with any cable construction (loose buffer tube, central core tube, loose fiber, ribbon) in various environments (aerial, pedestal, buried, hand-hole, manhole) and for multiple splice applications (expressed, tap-off, branch, and repair). These closures are used in outside plant networks and securely houses spliced armored optical fiber cables and fibers.

PRODUCT FEATURES

- Inline straight type
- UV resistant outer box
- All entry ports are sealed ports
- IP68 rated – water proof grade
- 4 ports with two inlet and two outlet ports
- Constructed of high quality Polypropylene (PP) material

APPLICATIONS

- CATV application
- FTTH access network
- Aerial mount installation
- Data communication network
- Outside plant (OSP) distribution network

CONNECTORS & ADAPTERS

SC & LC FIELD CONNECTOR

HTL Passive Connectivity Solutions provides field installable fast connector for easy installation of fiber at customer premises. Our field connector provides superior performance with low insertion loss.

PRODUCT FEATURES

- For quick and easy installation at site
- Available in short boot and long boot
- Minimum tooling required at site for installation
- Available in single mode (SM) & multimode (MM) fiber types
- Meets and exceeds the requirements of ANSI/TIA-568.3-D and IEC standards
- Available in SC UPC, SC APC and small form factor LC UPC and LC APC type

APPLICATIONS

- FTTH home access networks
- Data communication networks

ORDERING DETAILS

SL. NO.	Part code	Product description
1	HT-FCSSCU90	SC UPC SM Field Connector - 900µm Boot
2	HT-FCSSCA90	SC APC SM Field Connector - 900µm Boot

7	HT-FCSLCU25	LC UPC SM Field Connector - 250µm Boot
8	HT-FCSLCA25	LC APC SM Field Connector - 250µm Boot

CONNECTORS & ADAPTERS

SC & LC ADAPTERS

HTL Passive Connectivity Solutions provides fiber optic adapters for easy installation for variety of fiber management systems, fiber access terminals, fiber distribution box and other fiber optic applications.

PRODUCT FEATURES

- Anti-fungus plastic material
- Features snap and flange mount
- Meets and exceeds TIA/EIA and IEC specifications
- Available in single mode (SM) & multimode (MM) fiber types
- Available in simplex, duplex (SC & LC) and quad ports (LC only)
- Available in SC PC, SC APC and small form factor LC PC and LC APC type.
- Available in zirconia ceramic for SM adapters and phosphorous bronze for MM Adapters

APPLICATIONS

- Data center
- Central office
- FTTH access networks
- Premise cabling networks
- Data communication networks

FIBER CABLE ASSEMBLIES

FIBER-TO-THE-ANTENNA CABLE ASSEMBLY

HTL's high performance FTTA cable assembly ensures optimal performance across broad spectrum of wavelengths. These cables are specifically designed to meet performance requirements of low signal loss and high data transfer rates, to ensure reliable communication between remote radio units (RRUs) and baseband units (BBUs) in mobile networks.

PRODUCT FEATURES

- Good Repeatability
- Superior Crush Resistance
- Excellent flexibility for remote traction
- 100% factory tested for Mechanical & Optical characteristics
- Customizable Length
- IP68 Protected & UV Stabilized
- Suitable for Wireless Horizontal & Vertical cabling in Indoor & Outdoor Industrial Installations

APPLICATIONS

- Gigabit Ethernet
- Telecommunication Networks:
- Data Centres:
- Wireless Base Stations:
- 4G/5G Mobile Networks
- Broadband Internet

FIBER CABLE ASSEMBLIES

SINGLEMODE AND MULTIMODE FIBER PATCH CORD ASSEMBLIES

HTL Passive Connectivity Solutions provides variety of fiber optic patch cord assemblies for singlemode and multimode type fiber applications

PRODUCT FEATURES

- Standard or custom assemblies
- Controlled fiber protrusion type
- Precision ferrule endface geometry
- LSZH jacket for fire safety standards
- Available in Single mode and multimode fiber cores
- Available in simplex, duplex, 2mm, 3mm cable options
- Factory polished and tested as per relevant standards
- Available in the combinations of different fiber connectors

APPLICATIONS

- Data center
- Central office
- FTTH access networks
- Premise cabling networks
- Data communication networks

FIBER CABLE ASSEMBLIES

LC UNIBOOT FIBER PATCH CORD

HTL's innovative & space-saving LC Pull Tab Fiber Patch Cords, as available in Single Mode & Multi-mode fiber types, are ideal for reducing cabling congestion in high-density assembly environments such as Data Centers, Central Office & FTTx networks.

PRODUCT FEATURES

- Ultra-low loss
- Compact 2mm round cable
- Low-profile housing design
- Bend-insensitive/bend optimized fibers
- Color-coded shroud to denote performance
- Fast polarity reversal with unique rotating connector keys
- Pulling tab for easy access to connectors in high-density environments
- Available in single-mode (OS1/OS2) and multi-mode (OM1/OM2/OM3/OM4/OM5) fiber types

APPLICATIONS

- FTTx
- Central Office
- Telecommunications
- Data Centers Cabling
- Structured Cabling Networks

FIBER CABLE ASSEMBLIES

SINGLE MODE AND MULTIMODE FIBER PIGTAIL ASSEMBLIES

HTL Passive Connectivity Solutions provides variety of fiber optic pigtail assemblies for singlemode and multimode type fiber applications.

PRODUCT FEATURES

- Standard or custom assemblies
- Controlled fiber protrusion type
- Precision ferrule end-face geometry
- Available in different fiber connectors
- Available in Single mode and multimode fiber cores
- Factory polished and tested as per relevant standards

APPLICATIONS

- Data center
- Central office
- FTTH access networks
- Premise cabling networks
- Data communication networks

MPO FIBER SOLUTIONS

MPO RACK MOUNT PANEL

HTL Passive Connectivity Solutions 1U Rack Mount HD Fiber Panel supports maximum of 144F with MPO to LC modules or cassettes. This high-density solution provides to a greater network availability ideal for Data center and other fiber backbone connectivity.

PRODUCT FEATURES

- 1U 19" rack mount type
- Indoor installation grade
- Modular and scalable construction
- Pluggable cassettes for easy plug and play
- Cassette loaded with low loss connectors and adapters
- Available in single mode OS2 and multimode OM3, OM4, OM5 fiber

APPLICATIONS

- Plug and play systems
- High density fiber systems
- Backbone enterprise networks
- Data communication networks
- High integration equipment and devices
- Data center & storage area network (SAN)

MPO FIBER SOLUTIONS

MPO-MPO CABLE ASSEMBLIES

HTL's MPO cable assembly supports high-density Data center applications. This high-density solution provides a greater network availability ideal for Data center and other fiber backbone connectivity for plug and play installations.

PRODUCT FEATURES

- Indoor installation grade
- Temperature rating 75°C
- Available in polarity A, B & C
- Round & flexible outer jacket
- Low insertion loss assemblies
- LSZH jacket for fire safety standards
- For quick and easy installation at site
- Available in standard and customized lengths
- Available in 12F and 24F fiber pre-terminated MPO assemblies
- Available in single mode OS2 and multimode OM3, OM4, OM5 fiber
- Meets and exceeds the requirements of ANSI/TIA-568.3-D and IEC specifications

APPLICATIONS

- Plug and play systems
- High density fiber systems
- Backbone enterprise networks
- Data communication networks
- High integration equipment and devices
- Data center & storage area network (SAN)

MPO FIBER SOLUTIONS

BREAKOUT & MULTIFIBER CABLE ASSEMBLIES

MPO breakout cable assemblies are essential for parallel optics and duplex transmission cross-connect systems, optimizing cable density between switch and server cabinets. Engineered for high-density fiber patching in data centers, they ensure optimal performance across local area networks (LAN) and enable rapid deployment of multi-port patch field connectivity for Storage Area Networks (SAN).

PRODUCT FEATURES

- Indoor installation grade
- Temperature rating 75°C
- Available in polarity A, B & C
- Round & flexible outer jacket
- Low insertion loss assemblies
- LSZH jacket for fire safety standards
- For quick and easy installation at site
- Available in standard and customized lengths
- Available in single mode OS2 and multimode OM3, OM4, OM5 fiber
- Available in 12F and 24F fiber pre-terminated MPO-LC multi fiber assemblies
- Meets and exceeds the requirements of ANSI/TIA-568.3-D and IEC specifications

APPLICATIONS

- Plug and play systems
- High density fiber systems
- Backbone enterprise networks
- Data communication networks
- High integration equipment and devices
- Data center & storage area network (SAN)

COPPER CABLES

CATEGORY 6 U/UTP 23AWG CABLE

HTL Passive Connectivity Solutions Cat6 U/UTP cable is designed to support high data rates, high bandwidth digital applications and indoor fixed installations.

PRODUCT FEATURES

- 4Pair UTP cable
- 23AWG solid bare copper
- Available in LSZH and FR PVC jacket
- Supports IEEE 802.3bt 4P PoE+ applications
- Supports 1Gbps speed data Ethernet applications
- Operates at bandwidth of 250 MHz for high data rates
- Temperature rating during operation and storage 75°C
- Packaging type: Reel of 305m in a spool in a snag free box
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Premise cabling
- LAN Ethernet systems
- Data communication networks
- Surveillance camera networks

COPPER CABLES

CATEGORY 6 U/UTP 24AWG CABLE

HTL Passive Connectivity Solutions Cat6 U/UTP cable is designed to support high data rates, high bandwidth digital applications and indoor fixed installations.

PRODUCT FEATURES

- 4Pair UTP cable
- 24AWG solid bare copper
- Available in LSZH and FR PVC jacket
- Supports IEEE 802.3bt 4P PoE+ applications
- Supports 1Gbps speed data Ethernet applications
- Operates at bandwidth of 250 MHz for high data rates
- Temperature rating during operation and storage 75°C
- Packaging type: Reel of 305m in a spool in a snag free box
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Premise cabling
- LAN Ethernet systems
- Data communication networks
- Surveillance camera networks

COPPER CABLES

CATEGORY 6 S/FTP 23AWG CABLE

HTL Passive Connectivity Solutions Cat6 S/FTP cable is designed to support high data rates, high bandwidth digital applications and provides superior electromagnetic interference protection and voice immunity for indoor shielded installations.

PRODUCT FEATURES

- 4Pair S/FTP cable
- 23AWG solid bare copper
- Available in LSZH and FR PVC jacket
- Packaging type: Reel of 500m in a spool
- Supports IEEE 802.3bt 4P PoE+ applications
- Supports 1Gbps speed data Ethernet applications
- Enhanced overall high screen coverage outer braid
- Individual foil around each pair STP cable construction
- Operates at bandwidth of 250 MHz for high data rates
- Temperature rating during operation and storage 75°C
- Provides superior electromagnetic interference (EMI) protection
- Provide superior noise immunity and coupling attenuation performance
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Premise cabling
- LAN Ethernet systems
- Data communication networks
- Surveillance camera networks

COPPER CABLES

CATEGORY 6 F/UTP 23AWG CABLE

HTL Passive Connectivity Solutions Cat6 F/UTP cable is designed to support high data rates, high bandwidth digital applications and provides superior electromagnetic interference protection for indoor shielded installations.

PRODUCT FEATURES

- 4Pair F/UTP cable
- 23AWG solid bare copper
- Available in LSZH and FR PVC jacket
- Packaging type: Reel of 500m in a spool
- Supports IEEE 802.3bt 4P PoE+ applications
- Supports 1Gbps speed data Ethernet applications
- Operates at bandwidth of 250 MHz for high data rates
- Enhanced overall Aluminum foiled F/UTP construction
- Temperature rating during operation and storage 75°C
- Provides excellent electromagnetic interference (EMI) protection
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Premise cabling
- LAN Ethernet systems
- Data communication networks
- Surveillance camera networks

COPPER CABLES

CATEGORY 6 U/UTP OUTDOOR CABLE

HTL Passive Connectivity Solutions Cat6 U/UTP cable is designed to support high data rates, high bandwidth digital applications for indoor and outdoor fixed installations.

PRODUCT FEATURES

- UV rated
- 4Pair UTP cable
- 24AWG and 23AWG solid bare copper
- Packaging type: Reel of 500m in a spool
- Supports IEEE 802.3bt 4P PoE+ applications
- Suitable for both indoor and outdoor installations
- Supports 1Gbps speed data Ethernet applications
- Available in FRPVC inner jacket and PE outer jacket
- Operates at bandwidth of 250 MHz for high data rates
- Temperature rating during operation and storage 85°C
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Premise cabling
- Outdoor installations
- LAN Ethernet systems
- Data communication networks
- Surveillance camera networks

COPPER CABLES

CATEGORY 6A U/UTP CABLE

HTL Passive Connectivity Solutions Cat6A U/UTP cable is designed to support high data rates, high bandwidth digital applications and indoor fixed installations.

PRODUCT FEATURES

- 4Pair UTP cable
- 23AWG solid bare copper
- Minimizes alien crosstalk signals
- Available in LSZH and FR PVC jacket
- Packaging type: Reel of 500m in a spool
- Supports IEEE 802.3bt 4P PoE+ applications
- Supports 10Gbps speed data Ethernet applications
- Operates at bandwidth of 500 MHz for high data rates
- Temperature rating during operation and storage 75°C
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Data center
- Premise cabling
- LAN Ethernet systems

COPPER CABLES

CATEGORY 6A S/FTP CABLE

HTL Passive Connectivity Solutions Cat6A S/FTP cable is designed to support high data rates, high bandwidth digital applications and provides superior electromagnetic interference protection and voice immunity for indoor shielded installations.

PRODUCT FEATURES

- 4Pair S/FTP cable
- 23AWG solid bare copper
- Available in LSZH and FR PVC jacket
- Packaging type: Reel of 500m in a spool
- Supports IEEE 802.3bt 4P PoE+ applications
- Supports 10Gbps speed data Ethernet applications
- Enhanced overall high screen coverage outer braid
- Individual foil around each pair STP cable construction
- Operates at bandwidth of 500 MHz for high data rates
- Temperature rating during operation and storage 75°C
- Provides superior electromagnetic interference (EMI) protection
- Provide superior noise immunity and coupling attenuation performance
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Data center
- Premise cabling
- LAN Ethernet systems
- Data communication networks
- Surveillance camera networks

ORDERING DETAILS

SL. NO.	Part code	Product description
1	CABBSASB4DGFAPB305MR	CAT6A S/FTP 23AWG Cable - PVC
2	CABBSBSB4DGFAPB305MR	CAT6A S/FTP 24AWG Cable - LSZH

COPPER CABLES

CATEGORY 6A F/UTP 23AWG CABLE

HTL Passive Connectivity Solutions Cat6A F/UTP cable is designed to support high data rates, high bandwidth digital applications and provides superior electromagnetic interference protection for indoor shielded installations.

PRODUCT FEATURES

- 4Pair F/UTP cable
- 23AWG solid bare copper
- Available in LSZH and FR PVC jacket
- Packaging type: Reel of 500m in a spool
- Supports IEEE 802.3bt 4P PoE+ applications
- Supports 10Gbps speed data Ethernet applications
- Operates at bandwidth of 500 MHz for high data rates
- Enhanced overall Aluminum foiled F/UTP construction
- Temperature rating during operation and storage 75°C
- Provides excellent electromagnetic interference (EMI) protection
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Data center
- Premise cabling
- LAN Ethernet systems
- Data communication networks
- Surveillance camera networks

ORDERING DETAILS

2	CABBFASBNSNLG305MR	CAT6A F/UTP 23AWG Cable - LSZH

COPPER CABLES

CATEGORY 6A U/FTP 23AWG CABLE

HTL Passive Connectivity Solutions Cat6A U/FTP cable is designed to support high data rates, high bandwidth digital applications and provides superior electromagnetic interference protection for indoor shielded installations.

PRODUCT FEATURES

- 4Pair U/FTP cable
- 23AWG solid bare copper
- Available in LSZH and FR PVC jacket
- Packaging type: Reel of 500m in a spool
- Supports IEEE 802.3bt 4P PoE+ applications
- Supports 10Gbps speed data Ethernet applications
- Operates at bandwidth of 500 MHz for high data rates
- Temperature rating during operation and storage 75°C
- Provides excellent electromagnetic interference (EMI) protection
- Enhanced individual Aluminum foiled around each pair U/FTP construction
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Data center
- Premise cabling
- LAN Ethernet systems
- Data communication networks
- Surveillance camera networks

SL. NO.	Part code	Product description
1	CABBIASBNSNFG305MR	CAT6A U/FTP 23AWG Cable - PVC
2	CABBIASBNSNLG305MR	CAT6A U/FTP 23AWG Cable - LSZH

COPPER CABLES

CATEGORY 6A U/UTP OUTDOOR CABLE

HTL Passive Connectivity Solutions Cat6A U/UTP cable is designed to support high data rates, high bandwidth digital applications for indoor and outdoor fixed installations.

PRODUCT FEATURES

- UV rated
- 4Pair UTP cable
- 23AWG solid bare copper
- Packaging type: Reel of 500m in a spool
- Supports IEEE 802.3bt 4P PoE+ applications
- Suitable for both indoor and outdoor installations
- Supports 10Gbps speed data Ethernet applications
- Available in FRPVC inner jacket and PE outer jacket
- Operates at bandwidth of 500 MHz for high data rates
- Temperature rating during operation and storage 85°C
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Data center
- Premise cabling
- Outdoor installations
- LAN Ethernet systems
- Data communication networks
- Surveillance camera networks

RJ-45 COPPER PATCH CORDS

CATEGORY 6 U/UTP PATCH CORDS

HTL Passive Connectivity Solutions Cat6 U/UTP patch cords are designed to support high data rates, high bandwidth digital applications and indoor fixed installations.

PRODUCT FEATURES

- Wiring: T568B
- 4Pair UTP RJ-45 patch cords
- Supports data Ethernet applications
- Both component & channel compliant
- Patch cords are available in 5 colours
- Available in LSZH and FR PVC Jacket
- 24AWG multi strand copper conductors
- Supports IEEE 802.3bt 4P PoE+ applications
- Available in standard and customized lengths
- Operates at bandwidth of 250 MHz for high data rates
- Temperature rating during operation and storage 75°C
- Slim boot design RJ-45 unshielded plug for superior performance
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Data center
- Access points
- Premise cabling
- LAN Ethernet systems
- Data communication networks
- Indoor surveillance camera networks

RJ-45 COPPER PATCH CORDS

CATEGORY 6 F/UTP PATCH CORDS

HTL Passive Connectivity Solutions Cat6 F/UTP shielded patch cords are designed to support high data rates, high bandwidth digital applications and indoor fixed installations.

PRODUCT FEATURES

- Wiring: T568B
- 4Pair FTP RJ-45 patch cords
- Supports data Ethernet applications
- Both component & channel compliant
- Patch cords are available in 5 colours
- Available in LSZH and FR PVC Jacket
- 24AWG multi strand copper conductors
- Supports IEEE 802.3bt 4P PoE+ applications
- Available in standard and customized lengths
- Enhanced overall foiled FTP cable construction
- Protection against electromagnetic interference
- Operates at bandwidth of 250 MHz for high data rates
- Temperature rating during operation and storage 75°C
- Slim boot design RJ-45 shielded plug for superior performance against noise signals
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Data center
- Access points
- Premise cabling
- Shielded installations
- LAN Ethernet systems
- Data communication networks
- Indoor surveillance camera networks

INFORMATION OUTLETS (IO)

CATEGORY 6 UTP IO JACKS

HTL Passive Connectivity Solutions Cat6 U/UTP (Unshielded Twisted Pair) information outlet jacks are designed to support high data rates, high bandwidth digital applications and indoor fixed installations.

PRODUCT FEATURES

- Wiring: T568A/B
- Easy punch down type
- Keystone universal design
- Supports data Ethernet applications
- Both component & channel compliant
- Keystone IO's are available in 6 colours
- Molded plastic material for body and housing
- Operates at bandwidth of 250 MHz for high data rates
- Temperature rating during operation and storage 75°C
- Designed for unshielded twisted pair (UTP) 23/24AWG cables
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Data center
- Access points
- Premise cabling
- LAN Ethernet systems
- Data communication networks
- Indoor surveillance camera networks

ORDERING DETAILS

INFORMATION OUTLETS (IO)

CATEGORY 6 STP IO JACKS

HTL Passive Connectivity Solutions Cat6 STP (Shielded Twisted Pair) information outlet jacks are designed to support high data rates, high bandwidth digital applications and indoor fixed installations.

PRODUCT FEATURES

- Wiring: T568A/B
- Easy punch down type
- Keystone universal design
- Supports data Ethernet applications
- Both component & channel compliant
- Keystone IO's are available in 6 colours
- Operates at bandwidth of 250 MHz for high data rates
- Temperature rating during operation and storage 75°C
- Designed for shielded twisted pair (STP) 23/24AWG cables
- Excellent shielding for protection against electromagnetic interference
- Molded plastic material for body and housing with Die cast outer body for shielding
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Data center
- Access points
- Premise cabling
- Shielded installations
- LAN Ethernet systems
- Data communication networks
- Indoor surveillance camera networks

IO JACK PANEL

CATEGORY 6 UTP IO JACK PANEL

HTL Passive Connectivity Solutions Cat6 UTP (Unshielded Twisted Pair) IO jack panels are designed to support high data rates, high bandwidth digital applications and indoor fixed installations.

PRODUCT FEATURES

- Wiring: T568A/B
- Easy punch down type
- Keystone universal design
- Supports data Ethernet applications
- Available in straight and angular type
- Both component & channel compliant
- Available in 1U 24 ports and 2U 48 ports
- Loaded with black Keystone IO UTP jacks
- Operates at bandwidth of 250 MHz for high data rates
- Temperature rating during operation and storage 75°C
- Powder coated CRCA black panel with removable rear cable manager
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Data center
- Access points
- Premise cabling
- LAN Ethernet systems
- Data communication networks

IO JACK PANEL

CATEGORY 6 STP IO JACK PANEL

HTL Passive Connectivity Solutions Cat6 STP (Shielded Twisted Pair) IO jack panels are designed to support high data rates, high bandwidth digital applications and indoor fixed installations.

PRODUCT FEATURES

- Wiring: T568A/B
- Easy punch down type
- Keystone universal design
- Supports data Ethernet applications
- Available in straight and angular type
- Both component & channel compliant
- Available in 1U 24 ports and 2U 48 ports
- Loaded with Keystone STP Die-cast type IO jacks
- Operates at bandwidth of 250 MHz for high data rates
- Temperature rating during operation and storage 75°C
- Excellent shielding for protection against electromagnetic interference
- Powder coated CRCA black panel with removable rear cable manager
- Meets and exceeds requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 specifications

APPLICATIONS

- Data center

IO FACE PLATE

86X86 FACEPLATE 1P, 2P & 4P

HTL Passive Connectivity Solutions unloaded 86x86 faceplates can be configured to provide the ports required for the workstation LAN cabling. These faceplates are universal keystone design compatible with cat 6 & cat 6A unshielded and shielded keystone IO jacks

PRODUCT FEATURES

- ABS plastic body for aesthetic look
- Dimensions: 86mm X 86mm (UK style)
- Inbuilt spring type shutter for dust protection
- Available in 1port, 2 ports and 4ports design
- With integrated label holder for port identification
- Compatible for easy snap in of UTP and STP Keystone IO Jacks
- Individually removable IO ports for ease of maintenance during operations

APPLICATIONS

- Premise cabling
- Data access points
- LAN Ethernet systems
- Workstation LAN cabling
- Data communication network
- Indoor surveillance camera network

MODULAR PLUGS

RJ45 MODULAR PLUG

The RJ45 connector is a standardized 8-pin interface used for high-speed Ethernet networking, supporting data rates up to 10 Gbps and Power over Ethernet (PoE). It is ideal for applications in enterprise networks, data centers, and IP-based devices.

PRODUCT FEATURES

- Easy Installation
- Corrosion-resistant, with gold-plated contacts
- Locking tab prevents accidental disconnections
- 8-Pin Modular Design supports efficient data transmission and PoE
- Compliant to industry standards for broad network compatibility
- Supports high bandwidth speeds from standard Ethernet to 10GBASE-T applications

APPLICATIONS

- VoIP Telephony
- IP Security Cameras
- Enterprise Networks
- Data Center Infrastructure
- Wireless Access Points (APs)

ACTIVE COMPONENTS

TRANSCEIVERS

Transceivers convert electrical signals to optical signals, supporting high-speed data transmission over varying distances. It comes in various form factors such as SFP, QSFP, and CFP, supporting data rates from 1Gbps to 400Gbps and are crucial for optical network connections.

PRODUCT FEATURES

- Compact Design
- Low Power Consumption
- Supports up to 40Gbps for high data throughout
- Hot pluggable to maximize uptime and simplify serviceability

APPLICATIONS

- Data Centers
- Cloud Infrastructure
- Enterprise Networks
- Telecommunications

ACTIVE COMPONENTS

ACTIVE OPTICAL CABLES (AOCs)

AOCs combine optical fiber with transceivers, delivering high bandwidth for medium to long-range data connections. They are lightweight, power-efficient, and ideal for cloud data centers and high-performance computing.

PRODUCT FEATURES

- Lightweight and Flexible
- Low Power Consumption
- Enhanced EMI suppression
- Supports up to 100Gbps data rates for large data transmission

APPLICATIONS

- Data Centers
- Telecom Networks
- Enterprise Networks
- Cloud & Hyperscale Data Centers

ACTIVE COMPONENTS

DIRECT ATTACH CABLES (DACs)

DACs are twinax copper cables that connect directly to network devices such as switches and servers, offering cost-effective, low-power, short-range data connections. It comes in active & passive variants—Passive DACs are ideal for very short distances, while Active DACs have integrated electronics for signal boosting, allowing slightly longer reach.

PRODUCT FEATURES

- Low Latency
- Plug-and-Play
- Low Power Consumption
- Supports 10Gbps Ethernet for fast data transmission

APPLICATIONS

- Data Centers
- Telecom Networks
- Enterprise Networks
- Storage Area Networks (SAN)
